

## ARC ANNOUNCES NEW CANADIAN DISTRIBUTOR

ARC Healthcare Solutions and Vantage Endoscopy would like to announce the establishment of an exclusive strategic distribution relationship that will provide Canada's Endoscopy Suites and Reprocessing Departments with the unique opportunity to procure the most advanced endoscopy pre-cleaning and storage solutions from Canada's leading sales company dedicated to GI Endoscopy. ARC is excited to be represented by Vantage Endoscopy and believes this opportunity will open doors for both companies in the Canadian Healthcare Sector.

ARC will continue to offer its innovative Pass-Through Automated Endoscope Reprocessor (PT3AER), a device that reduces the risk of user error while increasing productivity in the reprocessing department. Please contact ARC directly for any inquiries regarding the PT3AER.

ARC Healthcare Solutions Inc. is a market leading medical equipment company specializing in the design and manufacturing of infection control solutions for Hospitals and Clinics worldwide. With its headquarters in Ottawa, Canada, the company has established sales platforms in North America, South America, Ireland, and the United Kingdom.

ARC has worked in conjunction with nurse managers and technicians to help improve effectiveness in the reprocessing of flexible endoscopes by introducing the proprietary Endoscope Cleaning Station (ECS1), a purpose built sink that at the touch of a button adjusts the height of the sink to meet the ergonomic needs of staff while at the same time ensuring consistent touch screen controlled reprocessing of each and every scope.

ARC also manufactures the HEPA filtered Endoscope Drying and Storage Cabinet (EC10H) and Endoscope Storage Cabinet (HDE20) to provide a safe and clean environment for the drying and storage of endoscopes after they have been appropriately re-processed and sterilized.

Vantage Endoscopy is a medical devices sales company specializing in technology and services relating to the practice of Gastroenterology within the Canadian healthcare sector. The company has built enduring relationships with many of the world's premier businesses that design and manufacture some of the most sophisticated, yet affordable, diagnostic and therapeutic tools available today.

ARC is in the process of transitioning the distribution relationship to Vantage from Getinge Corporation, the company that formally represented these products within Canada. For any future sales inquiries of the ARC Endoscope Cleaning Station (ECS1), the Endoscope Drying and Storage Cabinet (EC10H), Endoscope Storage Cabinet (HDE20) and the associated accessories please contact Vantage Endoscopy at 866.677.4121 or email to [info@vantageendoscopy.com](mailto:info@vantageendoscopy.com).
